
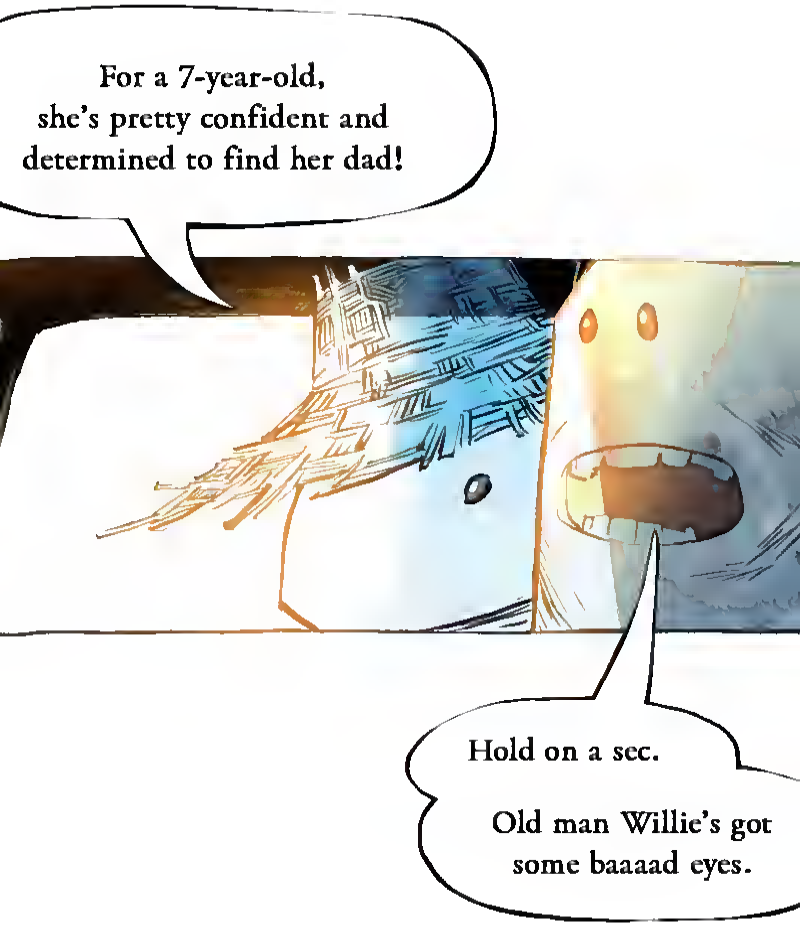
She doesn't act like it!

Who's in there?

She can see you and touch you..?
...How long has this been happening?
Just today!



For a 7-year-old, she's pretty confident and determined to find her dad!
Hold on a sec.
Old man Willie's got some baaaad eyes.

Wow!
I don't know what to say...
...so she knows you're a Sithrah and she's not even a little freaked out?

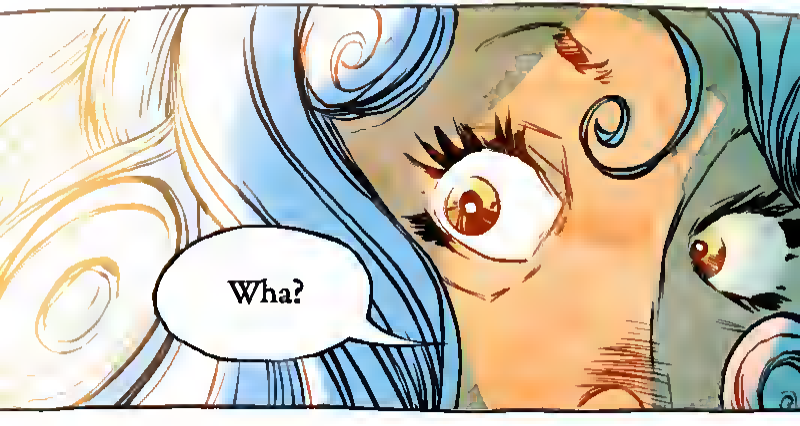
OUCH!

"When she woke up this morning she was looking right at me as if I were completely visible. We EVEN have conversations!



Wha?

I've just never ever heard of anything like this happening before. I don't know how to answer her!

I have more questions then she does!"

What are you doing under there?
